Prof. Manuel Alberto Fernandez

Director

Managing Factory, Argentina

Dear Prof. Manuel Alberto Fernandez,

Re: Achievements Forum 2020 (London UK) & official 'European Quality' Project

I am writing to cordially invite you to attend the **Achievements Forum 2020**, where I have the pleasure of informing you that you have been nominated for the **European Quality Award**.

The European Quality Award recognizes the high quality of a company's production and services, and outlines its competitive advantages to help raise its competitive capacity on the European and world markets. The European Quality Award is given to prominent regional companies who successfully satisfy their customers. **Managing Factory** has been chosen as one of the best regional representatives as it meets all specified criteria.

Information to make this decision was collected from various sources including exhibitions, chambers of commerce, conferences and forums, government bodies, national and international funds and associations, social networks, company rankings (Financial Times rating, Ernst & Young etc.), personal recommendations and the expert poll held annually.

The Achievements Forum (**April 17th, 2020, Institute of Directors, London, UK**) is a unique platform for international business and professional communication, sharing of best management practices, promoting goods and services, and the opportunity for a comprehensive improvement of business processes. It is unparalleled in terms of networking opportunities and offers the chance to make invaluable business connections.

While remaining fully independent from government or political persuasion, the Achievements Forum has grown through a combination of international cooperation and positive commercial outcomes. Attracting high profile delegates from the real world of business, the function is a key driver in the development of practical commercial exchanges.

The event is highly publicised, with a **live global web broadcast** and **professional photography** and **videography** which will be made available to you for your own use.

Winners of the European Quality Award **receive more than just the impressive trophy made of precious metals**, but also the license to use the award brand for public relations and marketing purposes.

Please do not hesitate to contact me for more information and to confirm your attendance at the Achievements Forum 2020.

Yours sincerely,

Julia Chambers
